

CHANGE IN FILE STATUS
APPROVAL FORM

DATE August 13, 1987

CURRENT FILE NO. None

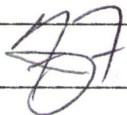

RECOMMENDED FILE NO. SM/037/056

COMPANY AND MINE NAME Minatome Corporation, Cottonwood Mine

REASON FOR CHANGE IN FILE STATUS

See attached field memo.

Minatome Corporation plans to reopen this old mine and has done some surface work on the property. It seems pointless to request a Declaration of Exemption from them since there is no legal basis for an exemption at this time. It is recommended that we start a small mine file and notify them when the rules pertaining to small mine operations are approved. Minatome is aware of the proposed rule changes and were given drafts of the proposed Small Mine Notice of Intent Form.
